2015 Conservation Innovation Grant Proposal: Web Development

**Proposal for:
New England Farm and Food Fund**

Website

Database with Reporting functions

Proposal Description:

"An Internet based tool that allows:

- entry of a farm's existing conditions
- evaluation of potential new soil improvement practices
- delivery of a proposed soil improvement management plan. "

This will be accomplished through the development of a secure website that will have two primary components:

1. Data Entry - A place for users to enter data specific to their land/site.
2. Reporting Module - Those who have been granted access to this module will be able to prepare reports as per

Project Evaluation section:

1. Test parameters
2. Sample locations
3. Results of analysis
4. Interpretation of the results

Development of the site and database will be accomplished using PHP / MySql.

Cost Estimate

Description	Time/Quantity	Rate (USD)	Tax	Total
› Website Development	5	\$90.00	No Tax	\$450.00

Front end website visual development and security implementation. Includes one hour of in-person meeting time for discussion of visual design.
