10a-315p - Multi-stage malware removal from Peter's pc. Optimized windows registry for speed increases.

Freebody: assessed dropping wireless issue in office. Suggested to Rich: run wire through wall from Todd office to Rich office. Then add inexpensive wireless router (to be configured only for office use).

Office: inspected Glory's pc (Asus). Cleaned off dust to lower overall fan speed (& volume). fixed audio issue. Attempted to install video card from older machine. Did not work in Asus. Noticed hard drive is close to dying. Recommend immediate replacement of pc (based on state of hardware, age of hardware and windows xp security concerns).
