Ellie had \$25k in a bitcoin wallet. After updating the wallet software (Multicoïn HD), he could not log in to his wallet. They were missing the 'wallet words' which would have allowed us to recover the PW or the wallet. I installed the old version of Multicoïn HD, which allowed us to log in to the wallet again. Then I lead them through the creation of a new wallet which we recorded the wallet words for, transferred the money to the new wallet and set up Dropbox to back up the wallet.

Subtotal: \$ 200.00

Total: \$ 200.00
