Simulation:

Retrieved files from link. Tested locally, and loaded on website.
Setup iframe option. Would load with website around it, but not fullscreen. Setup fullscreen link on menu.

Live site: Fixed captcha on WP-Admin login page. Was breaking login.

› Simulation Error	0.5	$ 100.00	No Tax	$ 50.00

Worked with Ken and Mike to determine the error seen in the simulation.
The simulation error came as a result of an Intel HD 3000 graphics card in my macbook pro. Apparently it doesn't support the toolkit that they use.
However, my MBP is from 2010 and you probably won't have many people using the same model to access the simulation.

Subtotal:	$ 825.00
